

Delivering SharePoint Solutions

Manage content and processes

- Control documents through detailed, extensible policy management
- Centrally store, manage, and access documents across the enterprise
- Extend business forms and processes across the organisation

Improve business insight

- Present business-critical information in one central location
- Share business data broadly while helping to protect sensitive information
- Unlock structured and unstructured business data to drive better decisions

Simplify enterprise collaboration

- Enhance customer and partner relationships with secure extranet portals
- Connect and share knowledge with ubiquitous Enterprise Search
- Personalise operations with Web 2.0 features like Wiki's and MySite's

Empower IT to make a strategic impact

- Simplify deployment, management, and system administration
- Robust system monitoring, usage tracking and enhanced interoperability support
- Enable IT to focus on more strategic tasks

What can SharePoint do ?

SharePoint has become an enterprise success story, enabling organisations to establish a solid technology platform to allow business systems to integrate more easily, empower people to collaborate more effectively and support the business to grow more freely.

Microsoft Office SharePoint Server 2007 (MOSS) presents a familiar user-experience across its integrated suite of server capabilities. The panel to the left highlights some of the main business benefits that can be achieved through a well planned and implemented SharePoint solution.

How can we Help ?

There is obviously a lot to understand and consider when contemplating why, where and how a SharePoint solution can best fit within your organisation. With a decade long track record of delivering quality enterprise solutions, let IBSA be your trusted SharePoint advisor and system integrator.

IBSA offers the following services to introduce or enhance the use of SharePoint within your organisation:

- SharePoint system health check and governance advice
- Content migration to SharePoint 2007 from previous version of SharePoint
- Envisioning, planning and design workshops
- Installation and configuration of SharePoint solutions
- Administrator and end-user training

Evaluate > Plan > Build > Train > Support

Contact IBSA today to help ensure you make the most of SharePoint within your organisation
